## About This Game

By buying TWFA or the OKW / USF army individually, players who do not yet own any COH2 product can access all existing Company of Heroes 2 maps in auto-match, and play against all other existing factions in multiplayer or through skirmishes against the AI.

Each army has distinctive tactical gameplay options, new infantry, team weapons, vehicles, abilities and upgrades on a total of eight seasonal multiplayer maps set on the Western Front. The Western Front Armies also includes a new progression system that introduces other unique content into the game and enables players to dive deeper into the tactical and strategic aspects of the game than ever before.

## FACTION PROFILES

An army for every player

**Soviet Army**

Mother Russia playing its manpower card. Great for initial mass production, but limited unit upgrades force player to build fresh new units instead of capitalizing on veteran units. Rather weak with and against armor units.

Introduced in COH2

**Wehrmacht Ostheer**

The early-to-mid war Eastern front German army. A very tech-advanced but defensive faction, with a slow start. What it lacks in manpower it makes up for it with various unit upgrades, allowing players to fully benefit from veteran units.

**Oberkommando West**

The late war Western front German army. A very aggressive and powerful army with very specialized and elite units, yet in very limited numbers. Requires to play with a clear intent. Devastating armor by late gamesituation.

Introduced in COH2; TWFA

**U.S. FORCES**

The typical US expeditionary corps. Allows for a variety of approaches. Very powerful at combined arms tactics, but inevitably a bit weak in the heavy armor dept.

**BRITISH FORCES**

Two very different armies contained in one. Tech tree is focused around constant trade-offs between mobility VS defense, leading to rather different mid and end games based on the choices made. Surprise your opponents!

Introduced in COH2; TBF
